

## TWENTY-NINE LOST

In the Frightful Trolley Car Accident, Sunday

## AND MANY SERIOUSLY INJURED.

Complete List of the Dead—It is Supposed the Motorman "Lost his Head"—Twenty Victims Claimed by the Mount Desert Ferry Slip Disaster—The Injured Improving.

BRIDGEPORT, Conn., August 7.—An open trolley car of the Shelton Extension Company, twisted, bent and smashed almost into kindling wood, lying in the mud of Peck's mill pond, at Cronoque, about six miles north of here, this morning is the only visible indication of the frightful accident of yesterday afternoon, when twenty-nine lives were lost and about a dozen people seriously injured from the car tumbling off the trestle which crosses the pond at this point.

Coroner Doten is making arrangements to conduct an investigation into the cause of the disaster, as soon as possible. Sheriff Doan was sent over this morning to empanel a coroner's jury, and it is expected that work will be begun this afternoon.

The cause of the accident is the chief topic of conversation to-day and all kinds of theories have been advanced and discussed.

Engineer W. Starr, who superintended the building of the bridge, said to-day that the bridge was perfectly safe in every respect. In his opinion after a thorough examination, the motorman became bewildered as the car commenced to travel fast down the incline, and finding himself in a dangerous situation, lost his head and turned the current on instead of reducing it. The revised list of the dead is as follows:

John Carroll, conductor, Bridgeport.  
Mrs. Arthur Holmes, Bridgeport.  
Mrs. Joseph Rugala, Stratford.  
Joseph Hotchkiss, Bridgeport.  
O. B. Wells, Bridgeport.  
Mrs. Frank Ballou, Stratford.  
Two children of Mrs. Frank Ballou, aged five and eight years, Stratford.  
William H. Harvey and wife, Bridgeport.

Daniel Galvin, Ansonia.  
John Galvin, Ansonia.  
Beattie Toomey, Bridgeport.  
Selectman Elias E. Bradley and wife, Milford.  
Sydney A. Pitt, Bridgeport.  
Peter Ring, Bridgeport.  
Henry C. Cogswell, Bridgeport.  
Irving Deros, Bridgeport.  
Patrick McDermott and wife, Bridgeport.

John F. Flynn, Bridgeport.  
Thomas McNally, Bridgeport.  
Willis Osborn, Stratford.  
Margaret Brennan, Bridgeport.  
Miss McDonald, Bridgeport.  
Howard Baldwin, Stratford.  
Two unidentified bodies at Stratford morgue.

List of Injured:  
Arthur Holmes, Bridgeport, left leg crushed at knee; may require amputation; internally injured; condition serious.  
Fred Hillerkus, Shelton, scalp wounds and internal injuries.

Charles Delaney, New York, Connecticut National bank, son-in-law of Mr. Cogswell, internally injured.

Frank R. Krapp, Bridgeport, fracture of the left leg and knee, collar bone broken and body extensively lacerated; condition critical.

Mrs. Sydney A. Pitt, Bridgeport, right leg fractured above and below knee; internally injured.

Matthew Olbin, Bloomfield, fracture of right wrist and scalp wound; internally injured.

George Canfield, Derby, badly shaken up.

William McCullough, Ansonia, internally injured; will probably recover.

Miss Mamie Farrell, New York, compound fracture of the right leg, requiring immediate amputation at the knee; internally injured; condition critical.

John C. Root, Derby, badly shaken up.

Bertha Rugg, aged six, arm broken.

Edwin Rugg, aged three.

The patients at the hospital were all reported in a favorable condition this morning and no more fatalities are apprehended.

## TWENTY DROWNED

As the Result of the Accident at Mt. Desert Ferry Slip.

BAR HARBOR, Me., August 7.—A careful examination by divers in the vicinity of the Mt. Desert ferry slip, the scene of the terrible accident yesterday, and investigation on shore by the officials of the Maine Central railway and others, up to 10 o'clock this forenoon seem to indicate that the twenty victims reported in last night's Associated Press dispatches are all who perished as a result of the catastrophe. A Mr. Southard, of Bangor, who was seriously injured, is not likely to recover, and two other persons are suffering from pneumonia. The others who were hurt yesterday were reported to-day as being in a favorable condition.

The complete list of dead shows no change from that sent out last night.

## No More Rheumatism.

For years my wife suffered from rheumatism. She tried many remedies, but got little benefit, and we had about given up all hope of relief when we heard of Celery King, and my wife began using it. This great medicine has, apparently, driven all the poison out of her system, and has certainly released her from all of pain.—G. F. Cushing, North Abington, Mass.

## MYSTERIES OF CATARRH.

Penetrating to any organ of the body, catarrh, though methodical, is mysterious. It is called by so many names that the mystery is deepened with every new phase. To be fully satisfied that indigestion and stomach trouble are catarrh, Dr. Hartman's books should be read. These books are mailed by the Peru-na Medicine Co., Columbus, O., on application. They define catarrh clearly and scientifically. The following letter from the Hon. Charles N. Vallandigham of the Adjutant General's Office, Columbus, O., bears on this point directly. He says:

Adjutant General's Office, Columbus, O., June 23, 1897.

To whom it may concern:

I have been troubled greatly with indigestion and decided to try the merits of Peru-na as a remedy. I found it to be of great service, and heartily recommend it to any one so troubled. I feel assured that they will be benefited by giving it a trial.—C. N. Vallandigham.

Mr. Vallandigham is a son of Hon. Clement L. Vallandigham, has been two terms in the Ohio Legislature, was elected clerk of the Senate, and is now in the Adjutant General's Office. His letter is but one of many thousands on file, showing the sterling qualities of Peru-na for catarrhal troubles.

save that the woman who was designated as unknown has been identified as Mrs. Leeper, of Bangor.

## Horrible Triple Murder.

SAN FRANCISCO, Aug. 7.—Chief Officer W. Smith, of the Hong Kong Maru brings some particulars of the murder of R. Nelson Ward, a young American, and two Japanese women, by an American sailor named Miller, at Yokohama, on the morning of July 17. Ward was the son of a wealthy resident of Abingdon, Va., and was twenty-three years of age. His body was found with the head cut off and the ears and a hand and an arm severed. The two Japanese women were also horribly mutilated. The cause of the murder was jealousy on the part of Miller. The murderer is supposed to have lived at Buffalo, N. Y. He reached Yokohama on the Tam O'Shanter, where he deserted. The murder was done in the Rising Sun saloon, which was owned by one of the Japanese women. Miller will be tried by Japanese law, as the treaty with the United States went into effect before the murders were committed.

## League Island Dock Bids.

WASHINGTON, Aug. 7.—Admiral Endicott, chief of the bureau of yards and docks of the navy department, may submit the bids for the League Island dock which was opened on Saturday to the legal officers of the department for a decision. This action may be necessary owing to the confusion arising from some of the conditions made by the bidders rendering it difficult for the bureau to figure out which is the lowest bidder. From the first examination of the bids Admiral Endicott believes that the award should go to either the Atlantic, Gulf and Pacific Company, whose bid was \$336,000 or the firm of Curtis & Driscoll, whose bid according to their own interpretation of the specifications, is placed at \$380,000. But conditions are introduced into the latter bid which may make it in reality as high a bid as the former.

## Mistaken for a Kaffir.

WASHINGTON, Aug. 7.—The reported indignity to an American citizen at Johannesburg, South Africa, arising out of his being mistaken for a Kaffir, has not been reported to the state department, and the view prevails among the officials that it is hardly likely to assume an international aspect. The relations between the British colonists of South Africa and the Americans in that quarter have been of the most satisfactory character, so much so that their interests have been regarded as alike in the recent controversy over the rights of the Outlanders in the Transvaal. For this reason the incident at Johannesburg is felt by officials here to be exceptional and in no way indicative of hostility to Americans.

## Colored Masonic Council.

CLEVELAND, O., Aug. 7.—The annual session of the United Supreme Council of Colored thirty-third degree Masons of the United States began here to-day, with delegates present from nearly all the states in the Union. During the meeting two commissioners will be elected who will visit Paris and other foreign cities for the purpose of gaining recognition in foreign countries for colored Masons. A plan will also be inaugurated for the erection of a home for the benefit of the widows and orphans of colored Masons.

## Obstinate Woman.

COLORADO SPRINGS, Col., Aug. 7.—William Borden shot and fatally wounded Miss Mabel McKenna because she refused to marry him. The shooting occurred while they were walking together on Caramillo street. Borden escaped and the girl was taken to St. Francis hospital. Several hours afterward the police searching for Borden, came upon his dead body near where he had attempted to kill his sweetheart. He had shot himself through the head.

## Predicts Ministerial Crisis.

MADRID, Aug. 7.—Marshall Martinez de Campos, president of the senate, in an interview just published, predicts a ministerial crisis in November, adding that the ministers of war, marine and justice, General Polavieja, Admiral Gomez Imbas and Senor Duran, respectively, will resign.

## Murder and Suicide.

OIL CITY, Aug. 7.—Salvador Praizars, an Italian, shot and instantly killed his wife here to-day, then attempted suicide by shooting himself through the head. Doctors say he cannot recover. No cause is known for the crime.

ALWAYS ask your grocer for Wheeling Bakery Bread. Good. Big. Cheap.

## THE SUN STRIKE.

Non-Union Printers from Philadelphia Induced to Remain Away.

NEW YORK, Aug. 7.—A new phase was injected into the controversy between the printers and the management of the Sun this morning by the arrival here of the steamer Endeavor from Philadelphia with 104 non-union men in charge of Charles William Edwards, the Sun's superintendent of printing. Only nine of this number on arrival here went to work, and after working for less than one-half hour, five of these joined the ranks of the strikers.

On board the Endeavor was a printer who had gone from this city as an emissary of the strikers. He spent the time on the trip to this city in explaining the situation to the non-union men, the majority of whom decided not to fulfill their contract with Mr. Edwards. When the Endeavor reached Pier A, North River, the non-union men were landed and as they started up Broadway for the Sun office they were joined by a committee of strikers. Before the office of the Sun was reached ninety-five of the non-union men dropped out of the line and they were escorted to the rooms of the Press Wheel Club, where they listened to an address by President Delaney, of the Typographical Union No. 6. They were afterwards escorted to the headquarters of the union, where they were cordially greeted.

According to the strikers figures there were twenty compositors at work in the Sun office this morning.

It is said that the actual number of men on strike in the composing rooms of the morning and evening editions of the Sun is sixty-eight night compositors, thirty-one day compositors, sixty "subs," thirty stereotypers and six pressmen. The men engaged in the press, mail and delivery rooms have, it is said, no organization.

## SOME OF THE BEST.

There are Also Many Others of Equal Force.

Good Qualities That Put the Stamp of Excellence Upon This Article.

There are many reasons why you should take Morrow's Kid-ne-olds in preference to any other kidney preparation. First, Kid-ne-olds are a scientific preparation. Second, they are tablets, which is the scientific form of preparing medicine. Third, there are never any bad after effects from their use. Fourth, they act directly upon the kidneys; they are strictly a kidney cure and nerve tonic. Fifth, you do not have to quit work while using Kid-ne-olds. A fifty-cent box contains enough for about two weeks' treatment. People use Kid-ne-olds, because they cure kidney ailments.

Here is what Mrs. R. D. Seelye, 47 Bradford street, Charleston, says: "I suffered for some time with pains across the small part of my back; at times they would be very severe and rendered it almost impossible for me to get about; I was very nervous and could not sleep at night. My condition was gradually growing worse and I felt just like I was going to have a severe fever. I read about Morrow's Kid-ne-olds and where they were guaranteed to cure lame back and nervousness, so I decided to try them. I obtained some at the drug store and began taking them at once according to the directions; in a day or so the pains disappeared from my back and I began to improve and feel better in every way and in a remarkably short time I was feeling perfectly well again and have been so ever since."

Morrow's Kid-ne-olds are not pills, but Yellow Tablets and cure all kidney ailments, backache, nervousness and sleeplessness. They are for sale at Chas. R. Goetze's drug store. Descriptive booklet mailed upon request by John Morrow & Co., Chemists, Springfield, Ohio.

## SUNDAY SERVICES

Of the Young Peoples Christian Union Convention at Pittsburgh.

PITTSBURGH, Pa., August 6.—While the Young People's Christian Union formally closed its tenth annual convention yesterday, there were many meetings held to-day and to-night by the delegates. A missionary rally was held this afternoon in the Second church, addressed by seven returned missionaries. At old city hall a reminiscence meeting commemorative of the birth of the United Presbyterian church, which was consummated in that hall forty-one years ago. Rev. D. F. McGill, D. D., of Allegheny, presided. Addresses were made by Rev. William Westcott, D. D., of Allegheny; Rev. D. McGill, D. D., Xenia, Ohio; Rev. C. J. Boyd, D. D., of Mt. Lebanon, Pa.; Rev. John G. Brown, D. D., Pittsburgh; Rev. A. G. Wallace, D. D., Sewickley, Pa., and Rev. Samuel Collins, D. D., Allegheny.

All the speakers were present at the union of the associate and associate reform churches in 1858, and their reminiscences of that historical event were highly appreciated by the large audience. Seven mass meetings were held to-night in different parts of the city, addressed by visiting divines and prominent laymen. It is announced that \$25,000 of the tenth annual thank offering has been subscribed and there is no doubt that when the unions next heard from report the full \$50,000 will have been raised.

## His Mind Affected.

PHILADELPHIA, Aug. 7.—David W. Rennie, who committed suicide yesterday in New York City by jumping into the Hudson river, was a member of the glazed kid leather manufacturing firm of Creery, Renneck & Co., of this city. He was thirty-five years old. The firm's factory was burned about six weeks ago and the loss was a source of much worry to him. He had been missing since last Wednesday. In addition to the loss at the factory there had been four deaths in the Renneck family in ten weeks.

## The Eighth Infantry.

HAVANA, Aug. 7.—The balance of the Eighth Infantry will probably move to Quemados this week. Colonel Randall is pleased with the idea of having all the regiment together. He has 999 recruits and with the drill facilities there and outdoor sports such as baseball he expects to make the Eighth one of the finest and most efficient regiments in the service.

## SHE WANTS THE EARTH.

Great Britain's Claims in the Alaskan Boundary Dispute.

Review of Reviews: The British contention is: First, that the "pass" called the Portland Channel did not mean what is now called Portland canal, but what is now known as Behm canal, which they claim was formerly called Portland channel.

Second, that though the Russians ran the line a uniform ten marine leagues from the coast as though there were no distinct range of mountains parallel to the coast, there is, as a fact, a range of mountains parallel to the coast, the crest of which should have been followed.

Third, that in case there were no range of mountains the ten marine leagues should have been measured, not from the line of salt water, but from the outer coast line of the islands or from the ocean, that being meant as the coast.

Fourth, that even if there were no distinct range of mountains and the line was accepted as ten marine leagues from the coast, it should be ten leagues from a meandered coast line and should cut across the mouths of the narrow channels and inlets with which the coast of Alaska is indented, leaving the harbors at the head of these inlets in the possession of Great Britain. Sir Wilfrid Laurier, premier of Canada, stated in the Canadian parliament in reply to a question relative to the Alaskan boundary: "According to our construction of the treaty of 1825, the boundary line should follow the crest of the mountains nearest the coast, passing over bays and creeks and inlets which are territorial waters."

After making all these contentions, it is reported that Great Britain took the position before the commission that while she was by right entitled to all the territory these various constructions of the treaty would give her, she was willing to sacrifice them all and as a compromise receive just one harbor—the best one on the Alaskan coast. And the refusal of the commissioners on behalf of the United States to accede to their request caused a suspension of negotiations on the part of the commission.

It has been said that Great Britain's policy in international disputes is to claim everything in sight and then have a margin upon which to make concessions when effecting a compromise. In the Alaskan boundary dispute her claims are without foundation, and the concessions she offers should not be considered, as they represent no sacrifice. She proposes to concede to the United States that which belongs to the United States, on the principle (so often invoked in international compromise) of mutual accommodation, a concession at once valuable to both nations.

## STRANGE PET

Of a Woman—It was Sick and Had to be Operated on.

New York Press: Strong affection for dumb animals has always been a prominent feature of Mme. Adelaide Herrmann's character, and in the life of her husband, the magician, she collected many pets. One that she prized more highly than the others, perhaps, was a tiny mouse that she rescued from a trap in Hooley's Theatre in Chicago, several years ago and completely domesticated through kind treatment.

Magic, the name bestowed upon the mouse, became much attached to Mme. Herrmann, especially when worn as an ornament by its mistress at the end of a gold chain. A band of gold studded with gems, encircled Magic just back of the shoulders, and a gold and platinum chain formed the indissoluble link of affection.

Strangers have been known to become embarrassed and to have the current of their thoughts turn toward better things while watching Magic emerge from Mme. Herrmann's corsage and leisurely climb to a comfortable resting place among her luxuriant braids of hair.

But woe is now the portion of Mme. Herrmann. Upon her return on last Saturday night from the roof garden, where she is giving slight-of-hand performances, she found Magic listless. The mouse seemed to crave champagne, which was administered, but to no avail. As the night waned Magic grew worse. She scarcely had strength enough to put out her tongue for examination, and could not say "Ahi" when entreated to do so.

Mme. Herrmann walked the floor the entire night, carrying the invalid's whole weight on one hand, failing with all her necromancy to make Magic's malady disappear.

In the early morning Dr. Mulvey was summoned. He is not a specialist in human ailments, but is a "corker" when it comes to curing a puppy of distemper or a horse of the heaves.

Magic was subjected to a searching examination. Her lungs were tested for evidences of consumption, and her limbs scrutinized for "house-maid's knee."

"Appendicitis!" was Dr. Mulvey's grim verdict.

"Shall I carve him open?" he asked. "Save my darling's life at any cost," responded Mme. Herrmann, just before she fainted.

The two trained nurses who always accompany Dr. Mulvey removed their coats, administered ether, and in a few moments the vermiform appendix was abstracted from Magic's inner economy. So deftly was the operation performed that the grating of the saw was not distinguishable outside the house.

Since the operation Magic has improved. Her delighted mistress has sent to Dr. Mulvey a large check, and again regards life as a rosy vista.

## Spanish Officers Acquitted.

MADRID, Aug. 6.—The supreme court martial before which Generals Toral and Pareja have been on trial charged with surrendering Santiago de Cuba to the United States forces without having exhausted all means of defense, has acquitted both officers on the ground that they acted upon the orders of their superiors and only surrendered when it was impossible to do otherwise. The judgment severely censures those in high command in the colonies and in Spain, as well as the government's responsibility for the lack of resources for the defense of the colonies.

MOTHERS lose their dread for "that terrible second summer" when they have Dr. Fowler's Extract of Wild Strawberry in the house. Nature's specific for summer complaints of every sort.

**CASTORIA**  
For Infants and Children.  
The Kind You Have Always Bought  
Bears the Signature of *Chas. H. Fletcher*

The Kind You Have Always Bought, and which has been in use for over 30 years, has borne the signature of *Chas. H. Fletcher* and has been made under his personal supervision since its infancy. Allow no one to deceive you in this. All Counterfeits, Imitations and Substitutes are but Experiments that trifle with and endanger the health of Infants and Children—Experience against Experiment.

## What is CASTORIA

Castoria is a substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is Harmless and Pleasant. It contains neither Opium, Morphine nor other Narcotic substance. Its age is its guarantee. It destroys Worms and allays Feverishness. It cures Diarrhoea and Wind Colic. It relieves Teething Troubles, cures Constipation and Flatulency. It assimilates the Food, regulates the Stomach and Bowels, giving healthy and natural sleep. The Children's Panacea—The Mother's Friend.
